

LIVE CINEMA DIRECTOR

Job Description

The Live Cinema Director will direct the live capture of a film using multiple cameras, and then supervise the edit and playback of the film during the performance. Responsibilities will include:

- Working with the Director to create a storyboard of the film
- Creating a shot list
- Working with the cast and creative team to sequence the capture of each shot during the show
- Produce a template edit file with the audio track, ready for clips to be added each show
- Call each shot, and supervise each take to ensure a high quality capture
- Work with the Video Engineers to supervise the edit of the film

Person Specification

This role would suit someone with film and/ or live broadcast experience.

- Experience directing for camera
- Experience working in live capture/ broadcast
- Experience working with young people
- Ability to manage and prioritise multiple workflows efficiently
- Strong problem solving skills and attention to detail
- Collaborative team member
